

## Case Study: Powder Curing Oven

**Project:** Powder Curing Oven

**Client:** Renowned Midlands Based Coating Specialist

**Project Brief:** To provide a replacement curing oven

Our customer required a replacement oven in their premises.

After a competitive tender process, Unitech Machinery were awarded the contract based on installation during the Whitsun holiday period to minimise any downtime.

The oven was designed, manufactured and installed by our engineering teams providing the customer with a quality oven which will give years of service.

### Plant Features:

- Energy efficiency
- Variable speed drive fan sets
- 15M long double pass tunnel oven
- 150mm insulated panel construction
- Substate temperatures 220° C

Unitech Machinery, Prospect Road, Burntwood, Staffordshire, WS7 0AL
